ASC DRIVE

## ASC DRIVE - PLAN SPONSOR DRIVEN TESTING

**ASC DRIVE** is the next generation in automation, allowing Plan Sponsors to initiate and drive their own testing online, with your Compliance Experts available to help along the way. Plan Sponsors submit and review year end data, initiate the Compliance Testing process and make decisions in real time regarding failed testing. Your Compliance Team is able to set when the plan is in their control, or the control of the Plan Sponsor, allowing intervention when needed.

*A component of ASC's industry leading Compliance Testing System*

# ASC DRIVE - Plan Sponsor Driven Testing

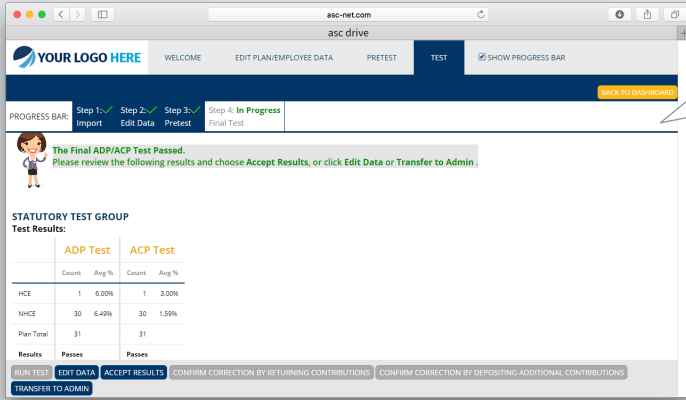

Let your plan sponsors take the wheel of their own compliance testing!

Customizable Year End Questionnaire for quick & easy on-line completion

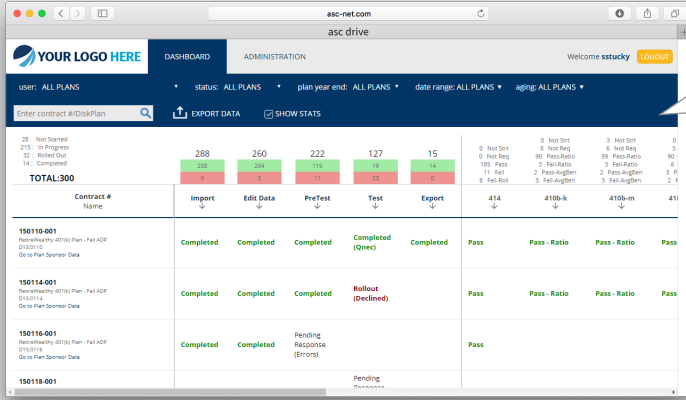

User friendly census data import which includes comprehensive data checks for accuracy and completeness

Plan Sponsors can perform their plan's compliance testing on their time line – with your compliance experts on standby for assistance

- Verifying Match & ER contributions
- Identifying HCE & Key Employees
- Top Heavy Status
- ADP/ACP Test Results with correction options

Monitor your plan sponsors' progress as they navigate through their testing cycle

Data files for corrections, true ups, allocations, etc. can then be created for processing
